

International Education Services International Student Travel Form

International students like to take the opportunity to travel during their program. Student visa conditions do not permit students to travel during term time.

The Department for Education and Child Development (DECD) needs to ensure that arrangements are made to protect the personal safety and well being of its international students in line with the state's child protection policy and the standards of the Education Services for Overseas Students (ESOS) legislative framework. The responsibilities of international students' natural parents and homestay parents also need to be recognized in this matter.

International students also need to provide travel details when returning to their home country for school holidays.

Procedure

If an international student wishes to travel away from the homestay, **parental permission** must be gained before travel. The *International Education Services Travel Form* is to be completed (after discussion with the ISP Manager) for any holiday travel undertaken by the student as outlined on the form at least two weeks prior to travel. (For local short stays, the International Education Services Short Stay Form should be used.)

Independent travel or travel unaccompanied by an adult is not permitted except if a student is travelling to his or her country.

A detailed itinerary including the name/s of the accompanying supervising adult/s, contact addresses and phone numbers, student mobile phone numbers proposed activities and estimated costs is required, and must be sent to Student Services, International Education Services (IES) along with the completed Travel Form, **signed by parent, prior to the commencement of the trip.**

This information is necessary for the student to be contacted at all times in cases of an emergency and to ensure their supervision, if appropriate, is guaranteed for the duration of their trip.

If a student intends travelling to his or her country during the holidays, it is their responsibility to check school term and course dates with the International Student Program (ISP) Manager at school **prior to** booking flights. Travel, which occurs during the student's course of study, constitutes a breach of student visa conditions and may result in Department of Immigration and Citizenship (DIAC) being notified.

If a student is away on holidays from the homestay for longer than one week, the Room Holding Fee will apply for students in the **Graduate Program**. This payment ensures the safe keeping of the student's possessions in their absence and that the student's room is available on their return. For those students whose payments are managed by IES this homestay payment adjustment will occur in the scheduled homestay payment only after notification is received by IES.

In the case where the school or IES has concerns regarding the nature, program or purpose of the trip, the parent signing the consent form to give approval for the trip indicates they assume responsibility for their child for the period of the trip (including notification to DIAC).

Students should also check with their agent for their travel requirements.
