Dear Parent/Caregiver

Re: Healthy Picnic - Stage 1 Child Studies

A Stage 1 Child Studies class will be participating in a healthy picnic on Thursday 26 May as part of their course.

Students will be planning and organising the day, including activities and foods that promote healthy eating, before determining the success of their planning and lunch creations. Students will be expected to collaborate and seek feedback from class members related to their current Summative Assignment.

It is expected that students attend this excursion as it relates directly to their third Summative Task – Healthy Picnic and Activity Day, and therefore, students will be disadvantaged if they do not participate. As this is an on-site excursion, students will be accompanied by Ms Callie Ashby and spend the day as a group instead of attending scheduled lessons, recess or lunch.

Students are to meet at the Home Economics Area at 8.40am to prepare the food before moving to the gym area to participate in planned activities and evaluate the food. Students will be dismissed at 1.10pm and are not required to return to school.

Students must wear the correct school uniform and be expected to behave in a way that reflects well on our school.

Please contact Callie Ashby at the school on 8364 2299 if you require further information.

Yours sincerely

Callie Ashby
