FROM THE PRINCIPAL

As we approach the end of a very busy and rewarding first term, I invite you to view the recent activities, opportunities and successes highlighted in this newsletter that support our students to flourish in their learning and development.

Recently our Middle Campus students participated in a range of Harmony Day celebrations. This was an opportunity for them to reflect on how we value and embrace the wonderful cultural diversity of our school (represented by 79 different cultures) that truly enriches our experiences on a daily basis. Activities included workshops, presentations, Year 8 Multicultural lunch, Year 9 morning tea, Greek community lunch and Middle-Campus Assembly. At Norwood Morialta High School we endeavour to empower our students to develop global competencies that will support them to actively engage in our changing world and help make it a more just and sustainable place. To further develop this work we plan seeking community consultation next term to determine what our new motto ‘Enriching Humanity’ truly represents and how we can inspire our students to engage in social action initiatives within a local and global context.

At Norwood Morialta High School we have a strong commitment to continuous improvement. Whilst this encompasses strategic planning, facility improvement, international student programs and co-curricular activities, the most important element is the quality and effectiveness of our teaching and learning programs. This term we are pleased with our students’ progress reports and achievement that has demonstrated positive work ethic and persistence in their approach. We encourage all students to use the next few weeks to reflect on their term 1 achievement and to return next term with renewed determination and motivation to achieve their new learning goals.

Along with our students, we believe our staff also has a responsibility to reflect on their individual practice and seek new approaches to improve the quality and delivery of what they teach. This term our teachers engaged in Professional Learning Teams (PLT’s) on Wednesday mornings to develop, trial and measure the effectiveness of new teaching strategies to enhance student learning experiences. Specifically teachers have been collaborating to improve their pedagogy and explore a line of inquiry in the areas of Positive Education, Blended Learning and Differentiation. Next term we look forward to measuring the effectiveness of this work with our students and sharing best practice with each other and our school community.

Once again the NMHS Open Night was a resounding success attracting over 900 visitors to our school. This event took place on Tuesday 5th April and was strongly supported by staff and many students from both campuses, highlighting their support and pride in their school. Visitors were most impressed by our students, the extensive and innovative learning programs, along with our facilities.

On a final note I would like to take this opportunity to promote the SA Excellence in Public Education Awards and invite students and parents to consider nominating a supportive teacher, leader and/or support staff member in recognition of their inspirational contribution to education by Friday 15th April 2016. Details are available at http://www.decd.sa.gov.au/awards/.

I wish you all an enjoyable, safe holiday break.

Jacqui van Ruiten
Principal
MID SEMESTER PROGRESS REPORTS

Mid-semester progress reports have been published on Daymap. This report indicates progress made against MYP criteria in each subject so far this term. Not all criteria will have been assessed in every subject at this stage as all subjects are Semester length. At the end of the Semester, in June, students will receive reports with final grades in levels 1 to 7 for all subjects.

In week 10 students completed a self-appraisal where they looked at their results so far, commented on their learning and identified their strengths as well as areas for improvement. This is an important process to allow students to strive for their best possible results for their courses. They should be able to identify aspects of the subjects which require improvement and are encouraged to discuss their goals with their teachers and their parents.

NYA against criteria indicate that they have not yet been assessed, but a 0 result against criteria indicates that a student has not submitted or not completed the work required. If you see a 0 result, please talk to your child about the reason for the non-submission or non-completion.

The Student/Parent/Teacher discussions will be held at the Middle Campus on Wednesday 13 April from 2.50pm to 7.30pm, students will be dismissed at 2.30pm to accommodate this. Parents will be able to make appointments using the on-line booking system.

NAPLAN

Year 9 students will sit the tests of Literacy and Numeracy in week 2 of term 2, beginning on the 10th May. The results of these tests are very useful to the school in identifying areas of strength and weakness in individual students as well as in the cohort. It allows us to see aspects of literacy and numeracy students in our school do well in but also those they find difficult so that we can address these.

We use the individual results to identify students for opportunities such as advanced classes in English and Maths. This year some of our year 10s are being assessed against year 11 SACE Stage 1 performance standards. Students doing well in both literacy and numeracy may be identified for inclusion in the year 10 extended class based on the senior campus.

Lower results and information about aspects of literacy and numeracy some students find difficult are used to identify support needed in class or the need for special literacy or numeracy classes.

Please encourage your child to do their best on the tests so that we have a true indication of their ability and the areas in which they may need support. We would like to see full attendance at all of the tests as much as possible.

GLOBAL CONTEXTS

The International Baccalaureate Middle Year Program (IBMYP) has a strong focus on international mindedness and global engagement. Global Contexts are an important part of all units taught.

There are six Global Contexts shown in the diagram below.

Students learn best when their learning experiences have context and are connected to their lives and to the world around them. This contextual learning helps teachers and students answer the important question “Why are we learning this?”
SACE Improvement

Senior School staff at Norwood Morialta High School are committed to supporting students to achieve success. To help students manage the workload, teachers set assessment deadlines taking into consideration the requirements of the teaching program and the learning and work demands placed on the student. Our current practice requires all students to meet deadlines. In the case of illness, injury or compassionate grounds, evidence must be provided to the teacher before the due date to negotiate the possibility of a new deadline.

This year we will continue to track students in relation to work non submission. If a student misses a deadline without negotiation before the due date, the subject teacher will send the student to the Submissions Support room for up to three lessons to complete the work to a C standard or higher. A ‘Work Non Submission Letter’ will be emailed to inform parents/caregivers on the day. If the student is unable to complete the work to a satisfactory standard within the three lessons, or there is a repeat of work non submission in the same subject, the student will be withdrawn from all SACE classes and a parent/student meeting held at the earliest possible opportunity. At this meeting the school will discuss a range of strategies and educational options to support the student.

We know that early intervention combined with parent communication greatly assists students to complete outstanding work to a satisfactory level and removes the possibility of them falling further behind. As a school it is our aim to support students to achieve the SACE and we do not believe any of our students should fail due to work non submission.

Semester 1 Diagnostic Reports for Stage 1 & 2 students

The Term 1 Diagnostic report for Senior Campus students was published on the Daymap Parent Portal on Tuesday 5 April for parent/caregiver perusal. If you require assistance to access the Parent Portal please email dl.0787.parentportal@schools.sa.edu.au. A printed copy can be made available at individual parent requests.

The purpose of the Diagnostic Report is to provide parents/caregivers and students with information about the progress the student is making in each subject and to identify those areas that require further attention in order for the student to achieve success in the subject. The timing of the report allows students, parents and the school to set up intervention strategies for improvement as required.

The Diagnostic Report provides a basis for discussion with both the parent, student and teacher at the Student/Parent/Teacher Discussion to be held on Thursday 14 April from 2.00pm to 7.00pm. We would ask and encourage all parents to book discussion appointments with all of their student’s subject teachers to gain valuable feedback on their progress. Please book appointments with subject teachers online by going to www.schoolinterviews.com.au and entering the school event code B59D2 and follow the steps as indicated on the website. Bookings are now open and close 13 April 10.00am. If you do not have internet access please call the Data Management on 81392133 for assistance before 13 April to have a booking made on your behalf. Should you be unable to make an appointment on this day please contact the teacher(s) and negotiate an alternative time.

Nikki Kotrotsos
Campus Head

The renovated Senior Campus Resource Centre
The Norwood Morialta High School Governing Council represents the whole school community in the governance of the school. This committee has an important function in setting the overall direction and policy of the school, where members discuss and contribute ideas to our future plans.

This year the 2016 Council has representation from our parent body, staff, students and a member of the broader community. All members are dedicated to supporting public education and strengthening our school.

Parent Representatives: Sandra Mestros (Chairperson), Yvonne Green (Deputy Chair), Ron O’Brien (Treasurer), Maerschel Zwart (Secretary), Peter Adams, Mich Bagnara, Corey Martin, Belinda Morro and Susanna Pappagallo
(NB Mich Bagnara and Maerschel Zwart were not present at the time of this photo)

Student Representatives: Nathan de Souza, Jenny Zhang, Hayley Brewer, Rifat Saroar.

Staff Representatives: Jacqui van Ruiten (Principal), Nikki Kotrotsos (Head of Senior Campus), Fran Millard (Business Manager), Amy Litchfield (Middle Campus teacher)

Community Member: John Gardner MP, Member for Morialta.

The Governing Council has already begun planning for 2016 and beyond and we will endeavour to communicate our work to our school community in future newsletters. Major discussion points from our last meeting, held on Tuesday 29th March included:

**Governing Council’s Role and our strategic work for 2016**
Key responsibilities will include reviewing policies, monitoring site financial and achievement performance, oversight of the Uniform and Canteen subcommittees and establishing the 2017-2019 Strategic Plan.

**International Programs**
NMHS is recognised as a leader in International Students studying at our school. In 2016 we have 154 students from many different countries living and studying within our community. The Governing Council has supported the expansion of this program to include new study tours from Italy and Japan in 2016 and recognises the benefits of engaging in the international experience as a homestay family.

In addition to sharing regular information, our Governing Council welcomes feedback and ideas related to our school and how we can best represent our school community by forwarding comments to dl.0787.info@schools.sa.edu.au. We also invite you to visit our website regularly, www.nmhs.sa.edu.au as information pertaining to school activities is regularly updated.

Sandra Mestros
Governing Council Chair
From time to time there is confusion about how parents can follow through on their concerns. In this diagram there is a clearer picture of the sequence that parents are asked to follow.

If you are still not satisfied you can refer your feedback or complaint to the Parent Complaint Unit by contacting us via email at DECD.ParentComplaint@sa.gov.au or calling us on 1800 677 435 (standard call rates apply for calls from mobile phones.)
DAVID SUZUKI’S WEBINAR- NEWSLETTER ARTICLE

On Friday the 11th March, the experience to interact with the worldly renowned environmentalist ‘David Suzuki’ was one of the highlights of the environmental science course. Taking part in a live broadcast with such a celebrated member of the science community gave us an incredible insight into the life of Suzuki, his legacy, challenges, and discoveries and, of course, what makes him the distinguished environmentalist he is today.

This interactive online seminar gave us the opportunity to explore the environment in a new and interesting way. Suzuki labelled science as ‘The driving force in our world’ and as his speech and answers (to questions posed by students all over Australia) went on, it became very clear that his statement was in-fact faithful to the points he laid upon us. This experience was a way we could reconnect science to the real world with what we learn in the classroom – exploring abiotic/biotic factors, sustainability, satisfying human needs and most importantly climate change where the following points were raised:

- What are the causes and effects of climate change?
- Is our planet becoming unhealthier?
- Are the Antarctic animals more effected by climate change?
- If climate change goes unchecked what are the repercussions?
- Would it be more sustainable for the environment if we ate vegetarian?
- Should we be spending more money on endangered species?

Additionally, we were given the opportunity to re-evaluate some of the things we take for granted in our everyday lives – particularly uncontaminated water, clean air and where our food is sourced from. In conclusion this interactive experience was a great opportunity to reconnect with environmental issues that we would like to explore, but gave us an insight to threats facing our planet.

David Suzuki’s webinar made us value our environment as it provided us with many ideas for our future and how we can help the environment today.

By Michael Kassara, Maggie Walsh and Hayley Brewer Year 10
Senior Campus 2016 SRC

Every year the Senior Campus SRC undertakes inspiring work. Last year the SRC raised over $2000 and the funds were donated to various charities and they also organised several successful assemblies to showcase student achievement and the range of programs our school offers.

Our 2016 SRC candidates have recently been elected by the student body and have already begun their work in earnest. The SRC is currently finalising their 2016 Vision and the program for the SRC assembly to be held early in Term 2. As the year progresses we will hear more about their work in the newsletters.

Congratulations to the following students who have been elected to the Senior Campus SRC for 2016.

Nathan de Souza   President
Jenny Zhang   President
Itay Aharon   Vice President
Emma Samie   Vice President

INTERNATIONAL PROGRAMS DURING TERM 1

Chinese New Year celebration for new International Students

Chinese New Year 2016, the year of the Monkey, was celebrated on the 8 February. To ensure our newly arrived International Students did not miss out on this very important celebration, a celebratory dinner was arranged at the Pak Lok restaurant. A group of 17 students, along with Assistant Principal, Ms Sarantaugas, attended the evening. There were free raffles with a range of prizes. In addition, scholarships were awarded to high achieving International Students who graduated in 2015. Jingyi Wang was awarded a $500 scholarship to assist with her studies in Commerce at the University of Melbourne.

“We went to the Chinese New Year dinner. In the lucky draw, some of us won prizes including a bag of Asian snacks, water bottles and $50 gift vouchers. The food was really delicious. It was a great experience to talk with people who we had never met before. We really enjoyed the night.”

Middle Campus Intensive Secondary English Course, (ISEC) students

WELCOME ORIENTATION BBQ FOR NEW INTERNATIONAL STUDENTS

On 19 March, I was invited to a free BBQ. There were many international students, some from the Senior Campus and some from university. I spoke to a person named Luke. He taught me how to cook Australian "snags" and I cooked so many snags on that day. It was a fun time!

Jiayi Li, ISEC student

Last Saturday I was invited to a BBQ. There were a lot of International Students. I made a new friend, Luke who went to China four years ago. He studied Chinese in Shandong University. We talked about some local Australian language.

Linhao Huang, ISEC student
Okayama Prefectural University (OPU) Visit – 22 March 2016

For the second consecutive year, we have welcomed staff and students from OPU. The students are from the Faculty of Health and Nutrition at the university. The group spent a day in the school, sharing with classes of Japanese, visiting the school cafeteria and observing Nutrition and Food and Hospitality classes.

We are planning to visit the university in 2017 as part of the sister school exchange to Takahashi

Thai Partner School – Yupparaj Wittayalai, Chiang Mai, Thailand

As part of a DECD partnership Schools Project with the Office of Basic Education Commission (OBEC), Thai Ministry of Education, NMHS established a Partner School with Yupparaj Wittayalai School. In 2014, staff from Yupparaj undertook workshadowing in our school. Two staff from NMHS have also reciprocated supporting the school with Professional Development.

From 18 – 23 March, one staff member and 5 students visited our school for a Study Tour, participating in classes and undertaking Australiana activities and excursions. Despite being only a short time in our school, friendships were developed and much sharing of education systems and cultures occurred.

INTERNATIONAL PROGRAMS

YEAR 8 IMMUNISATIONS

The notice is an important reminder to parents/guardians, giving them an opportunity to notify EHA of any changes that may have occurred to the child’s immunisation status since completion of their consent form.

The 2nd visit for the 2nd Human Papillomavirus (HPV) dose & Diphtheria/Tetanus & Pertussis (dTpa) will be on:
Friday 01 July 2016

The 3rd visit for the 3rd Human Papillomavirus (HPV) dose will be on:
Friday 04 November 2016

The student lists for the 2nd & 3rd visits will be emailed to you 3 weeks prior to the date.

Late forms will be accepted on the day of immunisation if necessary, but this is not encouraged.

On the day of vaccination it is recommended that the year 8 students being immunised wear their sports uniform which aids easy access to the upper arm area. This will save time and promote comfort to the arm area being injected.

The day before vaccination we recommend reminding students to have a good breakfast and recess on the day of immunisation. Anxious students who have a low blood sugar level are more prone to fainting in a mass immunisation situation.
Shortcuts Film Festival

We are very excited this year to be offering a new opportunity for our students who are passionate about film, film making and media. The first ever Shortcuts Film Festival is open to any student who wants to create, star in and enter their very own short film. Films entered throughout the year will be uploaded to our Shortcuts YouTube Channel and selected films will be premiered in a public screening in term 4.

There will also be a range of events and activities throughout the year for all interested students to engage with the festival. The first Supershorts Challenge has just finished, with students given only 96 hours to produce a three-minute short film. They were given a prop (balloon), line (I'll be back) and a sound (ripping paper), which they had to include in their film. An after school workshop helped kick-start the first challenge, and by the end our students' creativity was certainly flowing!

In term 2, there will be further afterschool workshops focussing on script writing, filming techniques, and editing. In order to attend, students must return consent forms, which are available in Student Services on both campuses. For further information and details, please go to our website: http://nmhsshortcuts.weebly.com

Jason Schutt
Arts Coordinator

SACE ART SHOW AWARD

Congratulations to former student Connor Braidwood who has won the Encouragement Award - Digital and New Media at the SACE Art Show 2016.

Connor won the award for his untitled mixed media work comprising 16 portraits on canvas and a computer display. His work is among more than 130 pieces selected for display at the Show. This year's exhibition features traditional paintings, drawings, sculptures, costumes and multimedia works created by Year 12 students who have completed their SACE Visual Arts – Art, and Visual Arts – Design subjects.

The Show, open at the Light Square Gallery until 4 May, is designed to inspire current and future SACE art and design students and raise awareness about how these subjects can be used as stepping stones to higher education and career pathways. Show visitors have an opportunity to win a prize worth $500 by simply voting for their favourite piece as part of the Community Award, sponsored by Credit Union SA.

Also, a “Meet the Artists” afternoon will be held on Saturday 16 April to enable visitors to get a greater insight into the creative processes and inspiration behind a number of the works. For further information about the SACE Art Show, visit: sace.sa.edu.au/news/events/sace-art-show or follow @saceboard on Twitter and Instagram.
On Friday 1st April, students studying Greek were involved in organizing a Greek Lunch in Celebration of Greek Independence Day which is officially celebrated on the 25th March by Greeks all over the world, to mark the beginning of the Greek War for Independence in 1821.

Prior to the event, students were engaged in meaningful activities about this important time in Greek history to help them extend their cultural understanding. Students examined events that took place and extended their learning on the long struggle of the Greek people against the Ottoman Empire. Students studied the local heroes of the war as well as international allies and influential people such as Lord Byron who assisted them in their efforts.

I wish to congratulate all the students studying Modern Greek for their contribution to this event. In particular, I wish to thank Elias Hatzopoulos, SRC who took charge to organize the lunch and the team of Greek students who assisted in this effort. Students helped in many ways including: setting up, organizing food making Greek traditional sweets, decorating the Upper Court Yard with posters and Greek flags made by the year 8 class, serving and of course cleaning up afterwards. A special thank you to Elias’ grandfather and Mr Peter Brook who kindly cooked the greek souvlakia for all to enjoy on the day. Thank you to Mr Fawcett our photographer and Ms Petric for assisting Elias in preparing for this occasion.

A special thank you to the year 9 Greek Class who learnt a traditional Greek dance and performed it so beautifully on the day which added a special cultural emphasis to our Greek lunch.

Maria Batzavalas
Greek Language Teacher
OUTDOOR EDUCATION TERM 1 2016

Outdoor Education has started off 2016 at the usual flat out pace. This year has seen Ryan Tripney (Yr 11), Diane Mudie (Yr 9 & 10) & Ray Prideaux (Yr 12) are teaching our students a range of skills.

Outdoor Education focuses on developing a wide range of skills in our students. The core of the subject is about understanding and appreciating the environment. This is achieved with practical expeditions and studying environmental sciences.

An equally important aspect of Outdoor Education is teaching our students about leadership, decision making and group dynamics. These skills are valuable tools for our students to have, and as a faulty we enjoy seeing the huge development of individuals as they progress through the Outdoor Education program from years 9 to 12.

What have we been doing?

The Middle School classes have been working on their Group dynamics through a range of small team building activities as well as Rock climbing, Kayaking and undertaking Fitness training programs in preparation for their journeys (keep an eye on the next newsletter for exciting trip reports).

Whilst on the senior campus we have been busy as well. In week 1 the Yr 12 class ran group dynamics activities for the year 8 students and have been rock climbing in Morialta Conservation park in preparation for their 4 day expedition to Mt Arapiles.

The year 11 class worked on their environmental knowledge, group dynamics and trip planning before undertaking an expedition to Innes National Park where they went cycle touring and surfing.

Stay tuned for some interesting trip reports in the next Newsletter.

Max Partington

Junior: Mateo Deville

HEAD OF THE RIVER – As it is every year the Head of the River was a fantastic day! Our rowers rowed in perfect conditions all morning in front of thousands of people which was a real buzz for them. The support of the parents on the day was magnificent and the BBQ we had running made over $900. The stand out performers on the day was our First IV Boys who made the final and finished fourth overall which was a sensational effort. In particular a special congratulations needs to go to all first year rowers who participated admirably and are now ready to be competitive in regattas commencing later on in 2016.

PRESENTATION DINNER – The presentation dinner was held straight after the Head of the River at the Rex Hotel and again it was well attended by the NMHS Rowing community. Students who excelled over the course of the season were presented with trophies and some of the speeches delivered by our students was a highlight of the night. Thank you to special guests Ms Van Ruiten, Ms Laiders, Ms Thomas and Mr Prudeaux for their attendance on the night.

OFF SEASON – The NMHS rowers now get a well-earned break for the duration of winter. That said, we will still be offering a 1 training session a week in the gym and on the water at the Torrens commencing early on Term 2. These sessions are optional but will be run by our expert coach Mariah Hatchard. Pre Season training will recommence in the back half of Term 3 in preparation for our Spring Camp.

Mr Vanderloo
Rowing Coordinator
Sports Day was held at the SA Athletics Stadium on Wednesday 11 March.

SPORTS DAY 2016

WINNERS BLUE TEAM!!!
On Wednesday 30th of March, Norwood Morialta High School students competed in the 20th Vista Northern Zone Athletics Carnival. NMHS competed in the A Grade competition this year, against six of the best performing schools across the North Eastern Zone.

It was a fantastic day for NMHS winning the Overall A Grade competition for the first time in 16 years.

Of the many highlights from the day, one was watching Lee Minervini chase down four students in the final leg of the Senior Boys 4 x 100m Relay to take first place in a tight finish. Max Partington, Chris Zunis and JP Socha-Williamson were also part of this relay team.

Invitation to parents

You are cordially invited to a presentation from South Australian Police, Road Safety Section.

On Wednesday, 25th May 2016, 7pm to 8pm Middle Campus Staff room

Topics cover:

- speeding, inattention, seatbelts, dangerous drivers, drink and drug driving
- how parents can be positive role models in promoting positive skills and behaviours in the car
- updates on current road rules

Enter via main entrance from Morialta Road West

Sponsored by the NMHS Parents and Friends Committee
24 x 4^2 = ????????

Would your child benefit from extra help with MATHS for yrs 8—10 then please direct them to the Resource Centre

EASY ONLINE PAYMENTS

BPOINT ‘One off” payment processing for School (replaces BIZGATE).
This facility is currently available for Visa/Mastercard Debit or Credit Cards
SIMPLY Log on to www.nmhs.sa.edu.au
GO TO the Popular Quick Links – School fees and follow the prompts

Communication at NMHS

The school uses a range of communication strategies to communicate with parent/caregivers which include the following:

SMS,
Emails,
Phone calls
Daymap Parent Portal
School website

Please ensure that the school has a valid email address and current phone number(s) to support this process.
